IIMEC18 Presentation Videos Now Available

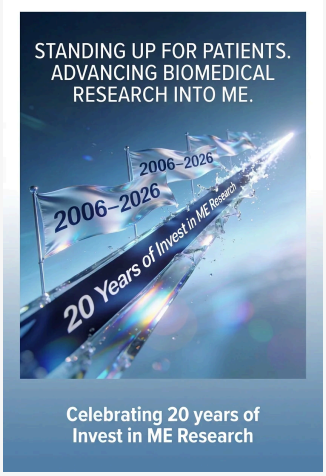

We have now published the videos from our #IIMEC18 conference - the 18th Invest in ME Research International ME Conference in May. All fifteen of the videos are available for free on our web site.

We have also made a brief summary of the conference - avalaible at this link

Click below for the #IIMEC18 page containing the conference video links.

20th Anniversary Appeal

These videos are free to watch. Our research is not free to fund however.

Twenty years of biomedical ME research and Invest in ME Research is still a 100% volunteer-run registered charity with no salaried staff. Please support and help publicise our ***20th Anniversary Appeal*** to keep our researchers in the laboratory.
Every pound donated goes directly to funding and facilitating our research and initiatives, driving the science forward for people with ME.

Results from IiMER's Work

An example of where supporters of Invest in ME Research have made a significant difference is clearly seen from the recent, unique EU Horizon award for the EMERG-led DISCOVER-ME project.

This was made possible by the efforts of the charity - see the story behind the project in this link DISCOVER-ME - How This Came to Be.

Work on the project is now underway and the European ME Alliance PPI Patient Advisory Group is beginning the work - and will be advising throughout all work packages.

The first meeting of the project committee will be held in October to review milestones.
